

FOREFRONT

FOREFRONT: (n.) the leading edge; a bold, adventurous position.

OUR FORWARD-THINKING PHILOSOPHY FREES US FROM THE BOUNDARIES OF TRADITIONAL SOURCING AND BLENDING TO ACHIEVE THE EXCEPTIONAL QUALITY AND DISTINCTIVE STYLE THAT DEFINES FOREFRONT WINES.

MODERN, DISTINCTIVE STYLE While honoring the tried-and-true winemaking techniques that have earned Pine Ridge its reputation for excellence, our blending philosophy takes a different approach. Rather than following the usual norms — wine characterized by appellation or tradition — we source each varietal from growing conditions in which it develops its best expression. For unusual complexity, we combine fruit from several regions. And instead of restricting our wines to the expected varieties, we often experiment with interesting blends.

This modern slant on traditional winemaking allows us to create unusually luscious, approachable and intriguing wines. Wines that appeal to sophisticated wine drinkers. Wines that deliver the quality that Pine Ridge offers, at an attractive, everyday value.
